

# Post and Stair Light

## Installation Instructions

### Installation

1. Slide plastic lens back to separate from copper top.
2. Open battery compartment.
3. Remove plastic tab between battery and terminal.
4. Ensure battery is firmly in place and switch is in “on” position.
5. Attach bracket to post.
6. Slide the Post and Stair Light onto the bracket.

Light will need 24 hours of direct sunlight to fully charge.
