

## Glass Rail Accent Installation Instructions

### To assemble your new Glass Rail Accent:

- Attach a wood trim connector to the bottom rail by driving finish nails through the pre-drilled holes.
- Slide the Glass Rail Accent into the groove in the wood trim connector.
- Fit the second wood trim connector on top of the Glass Rail Accent.
- Drive finish nails through the pre-drilled holes to connect the wood trim connector to the top rail.
- We recommend using stainless steel finish nails (not included) to maintain the beauty of your project over time.
